KANISHKA.M

Python Full Stack Developer

Mobile: 9043810756 | **Mail:** kanishka.032006@gmail.com

CAREER OBJECTIVE

Python Full-Stack Developer with hands-on experience in designing and developing web applications using Python, Django, Django REST Framework, and React.js. Experienced in building web applications with secure REST APIs, role-based access control, and responsive user interfaces. Strong understanding of SQL and database concepts, along with Docker-based deployments and Git-based development workflows. Ability to develop maintainable applications and work effectively in collaborative development environments.

TECHNICAL SKILLS

Languages : Python, JavaScript, HTML5, CSS3, SQL, Bootstrap
Frameworks : Django, Django REST Framework (DRF), React.js, Flask
Databases : MySQL, PostgreSQL, MongoDB
Tools : Git, GitHub, Docker, REST APIs
Systems : Windows, Linux (Ubuntu)

WORK EXPERIENCE

TAMIL INFO TECHNOLOGY | Jan 2026 To Present

- Developed and maintained full-stack web applications using Python, Django, and React.js with a focus on responsive and user-friendly interfaces.
- Designed and implemented RESTful APIs using Django REST Framework for seamless communication between frontend and backend systems.
- Worked with MySQL, PostgreSQL, and MongoDB databases for data management, query development, and maintaining data integrity.
- Used Git and GitHub for version control and collaborative development.
- Used Docker for application containerization and deployment in development environments.
- Developed responsive web pages using React.js, JavaScript, HTML5, CSS3, and Bootstrap.
- Performed API testing using Postman and participated in debugging and bug-fixing activities.

PROJECT : E-Commerce Web Application

Project Description:

- Developed a full-stack E-Commerce web application using Python, Django,

Django REST Framework, React.js, and MySQL.

- Developed RESTful APIs for product management, customer registration, authentication, cart management, orders, and transactions.
- Implemented authentication and role-based access control to provide secure access to different application modules.
- Designed responsive and mobile-friendly user interfaces using React.js, JavaScript, HTML, CSS, and Bootstrap.
- Implemented product listing, product search, shopping cart, order management, and inventory management functionalities.
- Integrated backend APIs with the React.js frontend for smooth data communication and application functionality.
- Designed and managed database tables using MySQL and performed SQL queries for efficient data retrieval and manipulation.
- Used Git and GitHub for source code management and Docker for application containerization.
- Performed API testing using Postman and participated in debugging, testing, and application enhancements.

EDUCATION

RVS College of Engineering, Dindigul
BE - ECE | 2023 – 2027
